

**Citizens Coinage Advisory Committee**  
801 Ninth Street, NW, Washington, DC 20220

December 11, 2011

The Honorable Timothy F. Geithner  
Secretary of the Treasury  
Department of the Treasury  
1500 Pennsylvania Avenue, NW  
Washington, D.C. 20220

Dear Secretary Geithner:

A public meeting of the Citizens Coinage Advisory Committee (Committee) was held on Tuesday, November 29, 2011, at United States Mint Headquarters in Washington, DC. The Committee reviewed proposed reverse designs for the 2013 America the Beautiful Quarters Program honoring White Mountain National Forest in New Hampshire, Perry's Victory and International Peace Memorial in Ohio, Great Basin National Park in Nevada, Fort McHenry National Monument and Historic Shrine in Maryland and Mount Rushmore National Memorial in South Dakota. The Committee also reviewed designs for the reverse of the 2012 American Eagle Platinum Coin and obverse and reverse designs for the 2012 First Spouse Gold Coin and Medal Program honoring Alice Paul, Frances Cleveland and Caroline Harrison.

For the quarter dollar reverse design honoring White Mountain National Forest in New Hampshire, the Committee was unable to provide a recommendation as none of the proposed designs received the Committee's 50 percent scoring threshold through the standard scoring process. However, design NH-02 received the most support with 10 of 21 possible points.

For the quarter dollar honoring Perry's Victory and International Peace Memorial in Ohio, the Committee found the three proposed designs to be inadequate and approved a motion to make no recommendations concerning the subject quarter.

Design NV-01 was recommended by the Committee for the quarter dollar honoring Great Basin National Park in Nevada. The design garnered 17 of 21 possible points through the Committee's scoring process.

For the quarter dollar honoring Fort McHenry National Monument and Historic Shrine in Maryland, the design receiving the highest point total was MD-01 with 8 of 21 possible points. However, the design was not recommended as its point total was below the 50 percent scoring threshold required to be recommended.

Finally, the Committee recommended design SD-01 for the quarter dollar honoring Mount Rushmore National Memorial in South Dakota. The design shows an aerial view of the memorial and garnered 11 of 21 points through the scoring process.

For the reverse design for the 2012 American Eagle Platinum Coin Program, the Committee recommended design AEP-04 showing a colonial minuteman with a musket transposed over a modern illustration of the American Flag. The design garnered 13 of the 21 possible points through the Committee's scoring process.

For the 2011 First Spouse gold coin and medal honoring Alice Paul, the Committee recommended obverse design AP-O-05. The design received 16 of a possible 21 points. Reverse design AP-R-04, garnered 20 of a possible 21 points and, therefore, is submitted with a strong recommendation by the Committee.

Among the proposed designs honoring Frances Cleveland's first term, the Committee recommended obverse design FC1-O-07. The design received 16 of 21 possible points. Reverse design FC1-R-05 tallied 13 of 21 possible points and is forwarded with the Committee's recommendation. Committee members recommended that the hair design shown on FC1-R-05 be changed to reflect the fringed hairstyle that was familiar to Mrs. Cleveland.

For the obverse of the coin honoring Caroline Harrison, the Committee recommended CH-O-01. The design received 15 of 21 possible points. Reverse design CH-R-05 earned the Committee's recommendation with 18 of 21 possible points prefaced on the further recommendation that design be modified to replace the proposed floral design with an image of a plate that was hand painted by Mrs. Harrison and that a four-leaf clover mark that was the known moniker of the first lady be added to the design. Provided that the forgoing recommendation to use Mrs. Harrison's plate design is not approved, the Committee recommends that the paintbrush shown in the design be altered to be shown over the top of the illustration of the lily pedal.

For Frances Cleveland's second term as first lady, the Committee provided its strong recommendation to design FC2-O-01 by assigning 19 of the possible 21 points. For the reverse design, the Committee gave 14 of 21 possible points to design FC2-R-02 and, therefore, forwards the design with its recommendation.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary B. Marks". The signature is fluid and cursive, with the first name "Gary" being the most prominent.

Gary B. Marks  
Chair
